English: Intermediate

Work Experience

No formal experience working on software development yet but looking forward to start making it. Here are some projects that shows my capabilities:

- <https://sprint-proyect-giphy.netlify.app>
It's a gif searching page that consumes an API from Giphy and uses a search engine with autocomplete suggestions of trending related topics.
https://github.com/lorenzo-pachioli/Sprint_proyect_Giphy.git
- <https://devsunited-pachioli.netlify.app>
It's a tweeter alike website using firebase as backend and react router for the different pages.
https://github.com/lorenzo-pachioli/Devs_united.git
- <https://pachioli-chat-app.netlify.app>
It's a real time chat web site that uses Socket.io-client to communicate with Api-chat.
<https://github.com/lorenzo-pachioli/Chat-app>
- **Api-chat**
It's the server application for Chat-app made in Node with Socket.io and MongoDB as database.
<https://github.com/lorenzo-pachioli/Api-chat>
